Sterling's Restaurant: A Legacy of Dedication and Tradition

Sterling's Restaurant, founded by Jim Sterling in 1982, began its journey in Richland, Washington, after Jim's extensive experience with various chain concepts from New York to Florida and back to Washington. Unlike his previous multi-location ventures, Jim focused on a single establishment to dedicate more time to his family. Remarkably, his daughter Saber visited the restaurant at just 18 hours old, cradled in Jim's arms as he served coffee and introduced her to customers. Saber grew up immersed in the restaurant environment, starting as a host and later waiting tables by age 12.

After Saber's graduation in 2008, Jim expanded Sterling's with a second location in Kennewick, where both father and daughter worked together. In 2011, they opened a third location on Queensgate Drive in Richland, a project Jim personally designed. Saber took on the role of General Manager, working closely with Jim once again. In 2016, Jim undertook a bold move by reconstructing the original George Washington Way location to optimize the river view, using the old structure's wall for the barking lot barrier as a nostalgic touch.

In 2023, Jim retired, passing the reins to his daughter Saber. She and her husband, Clint, now run the restaurants with their management team. Their children, Dash (7) and Demi (5), are also growing up in the family business and are eager to spend more time there as they get older. Sterling's Restaurant proudly reflects on its 40-year history in the Tri-Cities and eagerly anticipates the years to come as a family-owned and operated business.

The Rubicon: A Family Symbol of Vision and Commitment-

The Rubicon logo originated as a nameless sketch Jim Sterling would draw as a child. He described it as an abstract bird, crouching and ready to take off, with its beak pointing upward. Over time, Jim's explanation evolved to include the idea that the bird was always looking forward while also looking back, learning from its past. As an adult, Jim continued to draw this bird and eventually named it "the Rubicon." Initially unaware of the name's significance, he later discovered the Rubicon River's historical context. The phrase "to cross the Rubicon" means to take an irrevocable step that commits one to a specific course. This metaphor perfectly suited Jim's bird, symbolizing a readiness to leap forward while reflecting on past lessons, yet never retracing steps once a decision was made. The Rubicon now serves as a cherished family symbol for the Sterling's, representing vision, commitment, and the balance of forward-thinking and reflection. This emblem can be found throughout their lives and businesses, embodying the enduring values that guide their journey.

Hand Cut Steaks & Ribs

Our steak selection is a cut above the rest, as we hand-cut each succulent piece in-house daily. Sourced from USDA Choice or higher grade beef, our steaks are always fresh, never frozen, and expertly cooked over an open flame broiler to seal in the natural juices and deliver an unforgettable dining experience. Get ready to savor the mouthwatering tenderness and bold flavors that only the finest steaks can offer. What sets us apart is our owner's lifetime of experience in the restaurant industry and a background in the art of meat cutting. We take pride in doing things old school, where quality and freshness are at the heart of everything we do. It's this commitment to time-honored techniques and a passion for delivering the best that has made us a beloved local favorite and family tradition for years.
